

ART NEWS

October 30, 2015

First quarter sure went by quickly! Parker Woods Montessori artists created a lot of terrific work that has been shown in:

Northside at Hoffner Park

The Cincinnati Public School Central Office

On the Parker Woods Hill

Parker Woods Building

Kindergarten students have been learning about symmetry, color mixing, and pattern.

6-9 year old students learned about radial balance patterns, cityscapes, Ashanti Masks from Ghana, and the artist Andy Warhol.

9-12 year old students have been working very hard learning about value, color complements, contour drawing, and realism. A few of the lessons they've had, have been what is considered to be 7th grade level work!

We also said goodbye to **Samantha Messer**, our student teacher from D.A.A.P. and hello, to **Maxine Mitbo**, our new student teacher from D.A.A.P. Maxine completed her experience at S.C.P.A. at the junior high, and high school level, and now she is working with our students. We have been very fortunate to have both of these talented young women working with our students!

Ms. Nall has created a **YouTube** channel called "**Parker Woods Art Room**", demonstrations of lessons taught are periodically posted there. Any students or parent can go to the **Parker Woods Art Room** channel to watch a lesson.

Art Club will be for 9-12 year old students this year. Please look for permission slips soon. Art Club is limited to 15 participants, and membership will be determined by the drawing assessment on the permission slip. Students who receive a rubric score of 4 and turn their permission slips in on time will be accepted. Art Club will start on November 17th and will run from 3:40-4:40 on Tuesdays.

Stay tuned for more **Art News** next quarter!
